

KHURT ROCABERTE PINGOY

Bik, 3 Lot 15, Purok 17 Bongbong Panacan Davao City | 09676232914 | pingoykhurir@gmail.com

OBJECTIVE

Analytical and forward-thinking information Systems student with expertise in system documentation, data dictionaries, and workflow automation. Eager to contribute as a Junior Systems Analyst by translating complex business requirements into efficient technical blueprints.

EDUCATION

College Undergrad	Present
Davao Del Norte State College	Ponaba City
Highschool Graduate	
F. Bustamante NHS	Tibungco Davao City
Elementary Graduate	
Sixto Babao Elementary School	Ilang Davao City

PROJECTS

ACMES - Capstone	2026
Vibe Coding	
• Participated in a team project for the ACMES Capstone, contributing code to integrate various system components.	
• Assisted in documenting system designs and specifications to facilitate effective communication among team members.	
• Engaged in peer reviews to improve code quality and adherence to project requirements.	
Fitness Web	2025
• Constructed dynamic front-end components for a Fitness Web application, utilizing HTML, CSS, and JavaScript.	
• Optimized page load times and ensured responsiveness across devices to enhance user engagement.	
• Conducted usability testing to gather feedback and iteratively improve the application's interface.	
Burger Mobile UI	2024
Designer	
• Designed an intuitive mobile UI for a burger ordering application, focusing on user experience and interaction.	
• Created wireframes and prototypes using Figma to visually communicate design to the development team.	
• Incorporated feedback from stakeholders to refine the design, ensuring alignment with user needs and preferences.	
ACTMS – Agricultural Monitoring	2024
Designer	
• Developed user-friendly design mockups for an Agricultural Monitoring system, facilitating data visualization and user interaction.	
• Collaborated with a cross-functional team to outline operational workflows and functional requirements.	
• Ensured designs adhered to best practices for technical documentation to support the development process.	
Tic Tac Toe	2023
Sole Developer	
• Designed and implemented a fully functional Tic Tac Toe game using Java, enhancing programming skills and logic.	
• Developed the game logic and user interface, providing a seamless gaming experience through effective animation.	
• Conducted testing and debugging to ensure the application performed optimally and with minimal errors.	
Water Billing System	2023
Lead Developer	
• Led the development of a Water Billing System that streamlined billing processes and improved data accuracy.	
• Collaborated with stakeholders to gather business requirements, translating them into technical specifications and system architecture.	
• Utilized database structures to enhance data management, resulting in a ~25% reduction in billing errors.	

CERTIFICATIONS & LICENSES

- startup Sundayag 2025 - 3rd Place
- Html Essentials
- Cybersecurity Essentials
- Junior Cybersecurity Analyst Career Path
